

This overview is linked to our digital guide to the Vézelay Route (downloadable in .pdf format). It uses the same layout (stages and distances) and the same symbols.

The overview includes the following facilities:

1 Accommodation

We focus primarily on facilities for pilgrims. These are often simple and affordable. Many hostesses and hosts have themselves been pilgrims. So they know what you are doing and fully support that. You can also meet other pilgrims at these places.

These facilities often offer an evening meal plus breakfast and/or the possibility to prepare it yourself. They are usually located along the route or at a short distance from it. (If further away, sometimes an accommodation offers a pickup and return service.)

Often a 'donativo' is requested for pilgrim accommodation. This means: a gift, a voluntary contribution. Your contribution makes it possible that the accommodation can also be offered to the pilgrims who come after you.

We also mention other accommodation addresses, especially where there is no pilgrim accommodation. However, you will not find a 'complete' overview, especially in the larger cities. It would be impossible to keep such an overview up to date. If necessary, you can consult (the website of) the 'Office de Tourisme'. Moreover, you can search for accommodation via websites such as: [Booking.com](#), [Airbnb](#), and [Couchsurfing](#).

Not to forget: ask your hostess/host for advice on a good accommodation for the next day. She/he is often willing to call for a reservation, if necessary.

If applicable, and as far as we know, we indicate whether meals and WIFI are offered on site, whether animals are welcome, what the price is (check yourself!), etc..

Explanation of abbreviations used: B = bed, BB = bed & breakfast, HB = half board), PP / PN = per person / per night, P2P / PN = for 2 persons / per night.

If under the 'extra information' about an accommodation is indicated 'reserve', this usually means: 24 hours in advance. Sometimes a longer period applies, which is then specified.

2 Transport

If there is a train station in town, this is indicated 

The Vézelay Route generally passes through sparsely populated areas. Great for walking, but it also means that there are few train and bus connections. But that is precisely why there is a good alternative if necessary: hitchhiking (using your common sense). Everyone knows that there is hardly any public transportation.

3 Other facilities

- **Tourist Office** ('Office de Tourisme')  but also: the pilgrim offices (in Vézelay and Saint-Jean-Pied-de-Port), and the monuments designated as World Heritage by UNESCO in 1998, as part of the 'Pilgrimage routes to Santiago de Compostela in France'.

- **Post Office / Agency** ('Poste') 

- **Picnic bench / place M**

- **Bar, café, restaurant** ☺

These are indicated by one symbol, even if there are several places in one village or small(er) city. (Then under 'extra information' we indicate: 'multiple addresses').

- **Shops** (bakeries, butcher shops, groceries, supermarkets, etc.) 🏪

These are indicated by one symbol, even if there are several shops in one village or small(er) city. (Then under 'extra information' we indicate 'multiple addresses').

- **'All facilities'** ★

In the larger cities there are, of course, many bars, cafés, restaurants, shops and hotels. Moreover, usually there are special facilities such as: a hospital, shoemaker, bicycle repair shop, or outdoor sports shop. All these facilities are indicated with one symbol.

Finally...

... a few tips that you can safely ignore. After all, it's your journey!

With so much information available, the idea of 'everything under control' can arise. But that is not how it works. Hosts can decide overnight to stop receiving pilgrims without passing on the message. The bar or grocery that you have been really looking forward to, appears to be closed that day due to family circumstances. And so on and so on.

So make sure that, on your journey through these sparsely populated areas, you always carry a small, nutritious emergency supply with you,

Moreover: 'everything under control', is that really great? Your decision to go on a pilgrimage, wasn't it also a decision to leave behind you the familiar and certainties?

We think improvisation is part of that. While walking, you get a feel for the right direction, even without markings. Along the way you will discover that most cemeteries have a water tap, that post offices in smaller towns have limited opening times, that the presence of a tourist office usually indicates that there other facilities also.

To go one step further: don't try to plan everything in advance. Be open to what comes your way. Sometimes that is demanding, but often - in retrospect - these are highlights on your journey. Moments when you could experience true hospitality and help and/or you discovered that you can handle just fine.

Feel free to ask for help on your way, even if you do not speak French fluently. You will discover that most people are happy to help. And sometimes it leads to very special encounters.

BON CHEMIN!
